## ➤ Lemon Mobiles launches A4 full HD smartphone

INDIA: Lemon Mobiles has added a full high definition (FHD) smartphone to the family of its Aspirational series.

With this introduction, Lemon Mobiles will become the first Indian mobile handset company to launch the FHD smartphones in the country. The handset pushes the limits of affordable smartphone with its unique technology, content, design and high quality along with an impressive and

innovative user interface. The A4 is priced at Rs 17,999.

A4, the newest addition to the family balances an optimal viewing experience on a 5-inch FHD screen with 1080p display; the phone is thin and portable enough to put into a pocket or hold in one hand.

A4 is a mix of popular features such as an effortless user experience while providing endless entertainment, a scratch-less back, multitasking between video and other apps & much more. A4 is a new addition to its Aspirational series of smartphones. A4 will be available in a dual SIM version so that consumers can easily switch between tariffs with just one touch to stay on the most cost effective plan.

## About Me
