SAFETY PRECAUTIONS

Before using your phone, please read the following important information to eliminate or reduce any possibility of causing damage and personal injury.

	Do not use wireless phones while driving.
	Switch off wireless devices in aircraft. The signal may cause interference. Using them on aircraft is illegal.
	Do not use mobile phones where blasting is in progress. Follow regulations and rules strictly.
	Do not use mobile phones at a refueling point. Don't use near fuel or chemicals
	Follow regulations or rules in hospital and health care facilities. Switch phone off near medical equipment.
	All wireless devices may get interference that could affect performance.
	Only qualified service personnel can install or repair this device.
	Use only approved accessories and batteries.
	Use only in normal conditions. Do not expose your phone to extreme high temperatures above +60° (+140°F) . Do not use anything static to clean your phone.
	Ensure the phone is turned on and in service. Enter the emergency number, then press Pick Up key. Give your location. Do not end the call until told to do so.

Improper use will invalidate the warranty! These safety instructions also apply to original accessories.

1. Foreword

Thank you very much for choosing our company's mobile phone! This phone is a mobile phone with Dual SIM Cards, Dual Standby and Single Channel.

Our products conform to the Industry Standard for Communication in PRC as well as European Standard. They shall be applicable to GSM network after they have been approved.

The GSM network is a kind of international standard global cellular communication system.

Your mobile phone can access multiple international networks. It allows you to make or receive international calls, just like using in your own hometown. However, services required must be applied for and purchased before you can enjoy these advanced functions provided by the network.

To make better use of your mobile phone, we suggest you read this instruction carefully, so as to take full advantage of various functions introduced in this instruction.

In view of network configuration of the mobile phone and services provided by it, some functions may not be allowed to use, please consult vendor or network operations company.

2. Security Requirements

If your mobile phone is lost or stolen, inform immediately the telecom branch or its outlet to forbid the use of your mobile phone and SIM card, which will help you to avoid the economic loss caused by other's by misusing your telephone.

When you get contact with the telecom branch or its outlet, they need to know the IMEI number of your mobile phone, which is marked on the tab on the back of your mobile phone (you can find it with battery taken out). Keep the number for future use.

Please take precautionary measures to use your mobile phone more safely. Such as:

Set SIM and PIN to avoid the abuse of your SIM card.

When you leave your car, please do not put the mobile phone in a place easy to be seen.

Better take it with you or put it in trunk.

■ Security Warnings and Precautions

Please read these precautions with care before you use your phone to ensure that you will use it correctly.

■ General Precautions

In the places where the use of mobile phone is forbidden, such as on the airplane and in the hospital, please turn off your phone as it is required, otherwise it shall compromise normal operations of electronic devices and medical instruments. Please observe the relevant specifications of this location in case you should use your phone.

Please strictly adhere to local rules and regulations on the use of mobile phone when you are driving. Please follow the rules below in case you should use your phone when you are driving: focus on driving and pay attention to the road condition; if your phone has a function of handsfree, please use it for conversation; if you are in bad driving condition, please park your car first, and then make or receive a phone call.

Near the places with fuels, chemicals or explosive substance, please observe laws or regulations and related signs.

Please keep your phone, battery and charger in a place that children will be difficult to touch, to avoid they play it as a toy, thus causing physical harm.

Your phone can only be used with specified battery, charger and other accessories from our company, to avoid any damage to your phone. In case of using other batteries and chargers, it shall be possible to cause failures, such as battery leaking, overheating, bursting and flaming.

Please do not use your phone near weak signals or high precision electronic devices. Radio interference of mobile phone may be subject to cause misoperations of these electronic devices and other problems. You should pay special attention, especially near the following devices: hearing aid, artificial pacemaker and other medical electronic devices, fire detector, automatic door and other automatic control units. Detailed information about impact on devices, please consult the manufacturer and local vendor of that device.

Please do not strike, shock or throw your phone violently, so as to avoid failure and flaming of your phone.

Please do not put your phone, battery and charger into microwave oven or high voltage equipment, otherwise it may be subject to cause accidents, such as circuit damage and flaming.

Please do not use your phone in any places with flammable and explosive gas, otherwise there is a risk of phone failure and fire.

Please do not place your phone in any place with high temperature, high humidity and high dust content, otherwise there is a risk of phone failure.

Please do not place your phone in any unstable position, so as to prevent it from falling and causing any failure or damage.

■ Precautions on Mobile Phone Usage

Do not remove or refit your phone, or it may subject to cause damage, electrical leakage and circuit failure. If it is necessary, please send it to specialized maintenance points.

Non-professionals shall not remove the phone arbitrarily.

Please do not hit the LCD forcefully or use it to hit other things, or the liquid crystal panel will brok and the liquid will leak. There is a risk of loss of sight if the liquid got into your eyes.

Please wash your eyes with clean water immediately in this occasion (never knead your eyes), and see doctor right away.

In rare cases, there is a reverse effect on the in-car electronic devices when the phone is used in some models car. At this point, please do not use your phone, so as not to lose the security insurance. your car is equipped with an air bag, please do not put your phone on the air bag or any areas that the air bag can touch after its deployment, so as to avoid the phone will withstand a strong external force when the air bag deploys, and thus causing a serious injury to the car owner.

Please do not use any sharp objects such as needle and pen point to touch the buttons, or it may be subject to damage the phone or cause miss operation.

Avoid your phone being too near with any magnetic objects such as magnetic card, radiated waves of your phone may clear the information stored in the floppy disk, stored-value card and credit card.

Please put small metallic products such as drawing pin far away from the handset of your phone. The loudspeaker has a magnetic property while working, which will magnetize these small metallic products, and thus cause physical injury or phone damage.

Avoid your phone being exposed to moisture, or any water and other liquid getting into it, and thus causing short circuit, electrical leakage and other failures of your phone.

Please use your phone in a place far away enough from fixed telephone, TV, radio and official automatic equipment, so as not to affect the performance of these devices and your phone.

■ Precautions on Battery Usage

Please do not remove or refit the battery, or it may be subject to cause leaking, overheating, bursting and flaming of the battery.

Do not put used batteries in household garbage. In any locations with explicit specifications of used battery treatment, please handle them in accordance with the specified instructions.

Please do not throw the battery into fire, which may cause fire and explosion.

Do not exert pressure forcibly while assembling your battery, or it will cause leaking, overheating, bursting and flaming of your battery.

Please do not use any metallic products such as wire and needle to make the battery short circuit; and do not put the battery together with any metallic products such as necklace, otherwise it will cause leaking, overheating, bursting and flaming of your battery.

Please do not weld contacts of the battery, otherwise it will cause leaking, overheating, bursting and flaming of your battery.

There is a risk of loss of sight if the liquid of the battery got into your eyes, please do not knead your eyes with your hands, but wipe up with dry towel, and then see doctor right away.

Please do not use or put your phone in high-temperature such as around fire and heater, otherwise it will cause leaking, overheating, bursting and flaming of your battery.

If phenomena such as abnormal warming, discoloration and deformation occur while the battery is in use, charging or storage, please stop using the battery and replace with a new one.

If the leaky liquid of the battery contacts with your skin and clothes, which may burn the skin, wipe up with dry towel immediately, if necessary, see doctor right away.

If there is leaky liquid or a strange odor of the battery, please take it far away from open fire, so as to avoid fire and explosion.

Please do not expose the battery to moisture, or it will cause overheating, smoking and corrosion of the battery.

Please do not use or place the battery in any places with high temperature such as in direct sunlight, or it will lead to liquid leakage and overheating, and thus reducing its performance and shortening its lifespan.

Please do not charge continuously more than 24 hours.

Please store the battery in a cool, well-ventilated area without direct sunlight.

The lifespan of the battery is limited. It shortens gradually as the battery is charged frequently. It indicates the lifespan of the battery expires when it is of no effect by several times' charging, it should be replaced with a new one in specified model.

■ Precautions on Charger Usage

Please do not remove or refit the charger, otherwise it will cause physical harm, electric shock, fire and damage to the charger.

Please use a 220V alternating current. Using other electric voltages will cause electrical leakage, fire and damage to your phone or the charger.

It is forbidden to make the charger short circuit, which will cause electric shock, smoking and damage to the charger.

Please do not use the charger in the condition of broken electric power line, or it will cause fire and electric shock.

Please clean up any dust accumulated on the socket duly.

Please do not put the container of water around the charger, so as to avoid the water spilling and thus causing short circuit, electrical leakage and other failures of the charger.

If the charger contacts with water or other liquid, cut off the power supply immediately to avoid short circuit, fire, electric shock and failure of the charger.

Please do not use the charger in any places with high humidity such as the bathroom, or it will cause electric shock, fire and damage to the charger.

Please do not touch the charger, the electrical wire and the socket with wet hands, or it will cause electric shock.

Do not put any weight on the electric power line or refit the electrical wire, otherwise it will cause electric shock and fire.

Please pull the plug of the charger out from the supply socket before cleaning & maintenance.

Grasp the charger while pulling the plug, as pulling the electric power line will damage the electrical wire, and thus causing electric shock and fire.

Please do not charge at the following positions: places with high temperature such as in direct sunlight; places with moisture and dust and violent vibration (where it will cause failure); near electrical appliances such as TV set, radio (where it will compromise the picture and sound).

■ Cleaning & Maintenance

Please do not use your phone, the battery and the charger in any places with high humidity such as in the bathroom, and at the same time avoid them being moistened by rain.

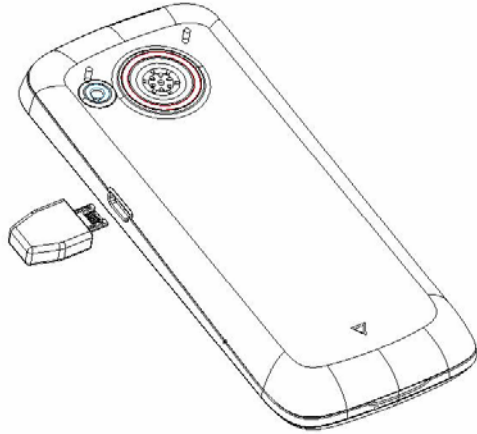

Please clean your phone, the battery and the charger with soft dry cloth.

Please do not wipe your phone with any chemical reagents, such as ethanol, diluent and benzene.

Dirty socket will cause imperfect contact or power down, so that it is impossible to charge, please clean it periodically.

3. GETTING STARTED

■ IO interface

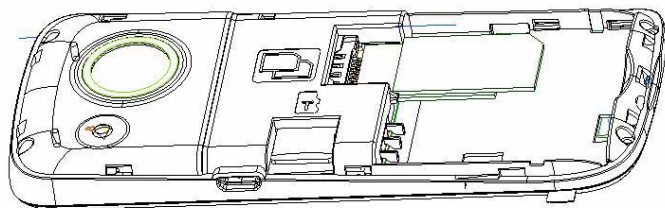

This machine has an IO interface: the right body for the data line, battery charger, earphone interface Mini USB interface to reuse.

■ Installing the SIM Card

- Keep all miniature SIM cards out of the reach of small children.
- The SIM card can be easily damaged by scratches or bending. So be careful when inserting, removing or handling the card.
- Before installing the SIM card, always make sure that the phone is switched off and then remove the battery.

Face the back of the phone, locate the SIM card holder, and then insert the SIM card into the slot (in the direction shown by the arrows in the picture). Make sure that the gold contacts of the card face into the face when installing the card.

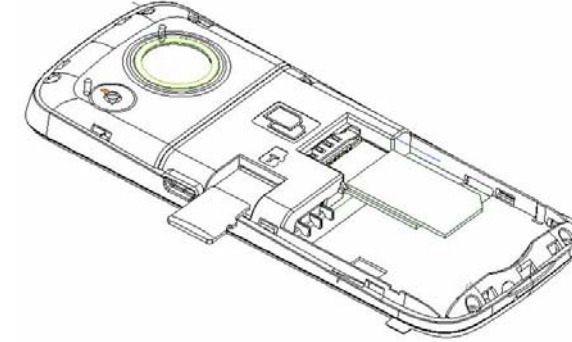

■ Installing the T-FLASH Card

Keep the T-FLASH card out of the reach of small children.

- The T-FLASH card can be easily damaged by scratches or bending. So be careful when inserting, removing or handling the T-FLASH card.

The machine T-FLASH card slot is located inside the fuselage, the T-FLASH card into the

T-FLASH card slot..

■ Removing and Installing the Battery

· The steps of removing the battery

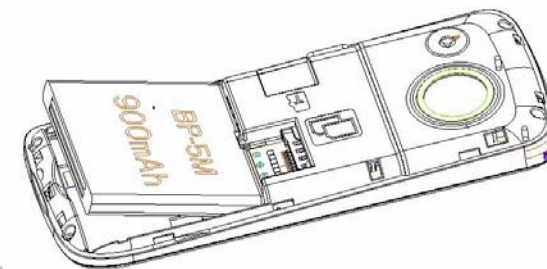

- ① Pull the battery cover upwards from the bottom of the phone to remove the battery cover.
- ② Lift the battery upwards; remove it from the battery compartment

Warning: Make sure that the phone should be switched off before removing the battery.

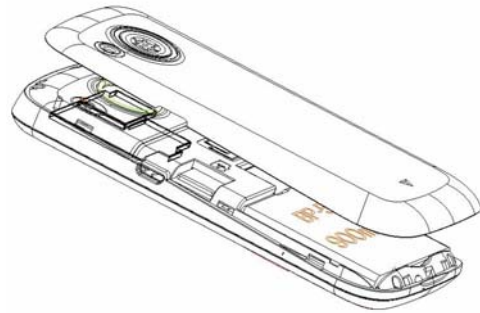

It's absolutely prohibited to remove the battery when the phone is switched on or connected to external power source, otherwise the SIM card and the phone will be damaged.

· The steps of installing the battery:

- ① Insert the teeth on the bottom of the battery into the corresponding slots in the battery tank, and then push the battery until it clicks into place.

- ② Put on the battery cover and press the cover downwards until it clicks into the phone.

■ Charging the Battery

Plug in the charger in the phone interface. After inserting the charger plug, a battery icon appears on the upper right corner of the screen, indicating that the battery is charging. When the strip on the icon stops rolling and shows no empty space, the battery is fully charged. Pull the charger plug straight out after the battery is fully charged.

· When the battery is weak, a warning message appears on the screen and the battery icon becomes blank. When the battery becomes too weak for the operation, it switches off automatically. Don't let the battery low for a long time, otherwise the quality and working life of battery will be harmed.

· Use the battery charger designated by the manufacturer to ensure the normal operation of the phone.

■ Switching the Phone On/Off

Hold down the on/off key for certain time to switch the phone on/off.

Note: Do not switch on the phone in the places where you are prohibited from using it or the use of the phone may cause disturbance and risks, and you'd better remove the battery in such a case.

◇ If you switch on the phone without inserting the SIM card in advance, the message of "No SIM Card" appears on the screen.

◇ If your SIM card has activated PIN, the message of "Enter PIN" appears on the screen when you switch on the phone.

◇ Note: If you enter the wrong PIN three times in a row, the message "PIN BLOCKED" appears. To unblock it, you need to enter your PUK, and you can contact your network operator for personal unblocking message.

◇ If your phone is out of the service area, the message of "No Network" appears on the screen. In this case, you can't make or receive calls until you enter the service area and regain

the network service.

4. Call Functions

Click to dial in the idle screen, enter the number into the dial, select the button below SIM1 or SIM2 dial for the number of dial; addition, you can dial the number for your store, you can select SIM card or there is need to phone. When you need to enter the number to delete, please click remove characters. Enter the number, press the "+" button, then enter the country code, area code and phone number, click the dial button to dial an international number.

Enter the number, Press "P" key you can insert a pause the second number "P" (such as between the switchboard and extension), then the number will be asked to enter extension number is sent out.

Note: If you set the auto redial function, no answer or the line is busy, the phone will automatically redial the number, and allows the call after the failure of the automatic redial function.

When you want to end the call, please hang up button. After the call, the display will show the talk time.

5. MENU STRUCTURE

In standby mode, click the OK button to access the menu. Including the 12 main menu icon:

- 1) Phone Book
- 2) Messaging
- 3) Call Center
- 4) Settings
- 5) Multimedia
- 6) File manager
- 7) User Profiles
- 8) Web servicer
- 9) Organizer
- 10) Fun & Games
- 11) Opera
- 12) Lemon Twist

6. PHONE BOOK

Phonebook stores contacts and can also set the contacts in group.

Click on contact:

- ◆ Edit
- ◆ Send text message
- ◆ Send multimedia message
- ◆ Call

Access options:

- ◆ View

View the information of stored numbers

- ◆ Edit

Edit the information of stored numbers

- ◆ Delete

Remove stored numbers in the mobile phone and SIM card information

- ◆ Copy

Contacts can copy, copy to the phone, SIM card 1, SIM card 2, file

- ◆ Move

Move SIM card information to phone and vice versa

- ◆ Send Contact

Can send contact via SMS, MMS, e-mail, Bluetooth

- ◆ Add to blacklist

Contact can be added to the blacklist

- ◆ Call Group
- ◆ phone book settings
- ◆ Print

7. MESSAGES

You can send, receive and edit as well as save various messages by using this function. The right phone number of the Service Centre of the network operator shall be saved in your mobile phone when SMS is being sent.

7.1 SMS

■ Write message

When entering the interface of writing message, you can insert template and object and edit the format of the text, as well as insert the phone number and the name, etc. Then move the cursor to the receiver and select the phone number.

■ Inbox

Browse all the messages you received. Message ring shall be heard from your mobile phone when receiving a piece of new message, and the icon of the unread message shall appear at the top of standby screen. Then read the latest message, with the latest information such as time, date, the phone number of sender displaying on the screen. You can enter the

inbox to browse the message.

You can complete the following operations after entering the options menu.

- 1) View: view message;
- 2) Reply: reply SMS;
- 3) Call the message sender: directly dial the number of the message sender;
- 4) Forward: forward SMS to others, and you can continue to edit based on the original content;
- 5) Delete: delete the SMS;
- 6) Delete all: delete all SMS saved in the inbox;
- 7) Advanced option:
 - Copy to mobile phone: copy this piece of message to the mobile phone
 - Move to mobile phone: move this piece of message to the mobile phone
 - Copy all: the message can be copied to the mobile phone/SIM card;
 - Move all: the message can be moved to the mobile phone/SIM card;

■ Drafts

This box is used to save the message you prepare to send, which you can edit, delete some parts or all.

■ Outbox

Browse the message you have sent. Other function is the same as the inbox.

■ Templates

- 1) Enter the template option;
- 2) You can edit, delete the phrases or create new message in the template.

7.2 MMS**7.2.1 Write message**

You can edit MMS by using this function. Enter the content to be edited:

■ Receiver

Input the message receiver's phone number or e-mail address which can be added, deleted or modified by you.

■ Subject

Edit the title of MMS

■ Edit the content

Enter the content to be edited, and input the message you want to send. You have the following choices for option menu of editing MMS:

- 1) Input method: when editing, you can switch among the input methods of capital letter, lower-case letter, number, etc.
- 2) Add picture: add the picture saved in the memory card to MMS edit box, and you can preview it. The corresponding information shall be shown if the list is empty.
- 3) Add voice: add the ring saved in the memory card to MMS edit box, and you can preview it. The corresponding information shall be shown if the list is empty.
- 4) Add video: click the icon to enter and add film or video to MMS edit box, and you can preview it. The corresponding information shall be shown if the list is empty.
- 5) Add accessory: enter the memory card to select the accessory to be added
- 6) Add the new page ahead: add the new page before the current page.
- 7) Add the new page backwards: add the new page behind the current page.
- 8) Add bookmark character: add bookmark character
- 9) Preview: browse the edited MMS (including character, voice, video and picture, etc.)
- 10) Interval time: set display time for this page

Note: Currently, this mobile phone supports the play of audio file in mid format; supports the display of image file in the format of JPG, GIF or BMP; supports the play of video file in the format of MP4, 3GP or AVI. This mobile phone shall not normally display this image file which can't be played, if the MMS you received contains the file whose format is not covered in the above-mentioned ones.

You can send MMS to a batch of persons at one time, and the volume of each piece of MMS shall not exceed 100KB. You can save message to draft box during the creation of new message.

Enter option menu to deal with the message:

- Send: send the edited MMS.
- Save and send: save the edited MMS to the draft box and send it.
- Save to the draft: save the edited MMS into the draft box
- Save as template: save the edited MMS into the template
- Send option:

During the period of use Status: maximum/ 1 hour/6 hours/12 hours/one day/one week.

Send reply: whether the status report reply from the message centre after sending message is available, you can select on or off.

Read reply: Status: off/on

Priority level: Status: high/middle/low

- Quit: you will be asked whether to save this message when leaving the interface of sending MMS.

7.2.2 Inbox

Enter inbox option and conduct the operations as follows:

- View
Play the contents of the MMS.
- Detailed information about message
Display the sender, copy, subject, date and volume of the MMS.
- Reply
Reply MMS to the sender.
- Reply all people
Reply all the contact persons who are in sender, copy and blind carbon copy columns.
- Forward
Forward: forward SMS to others and you can continue to edit based on the original content.
- Delete
Delete the MMS.
- Delete all
Delete all the MMS in the inbox.
- Use number
Dial or save the number to the phonebook.

7.2.3 Drafts

It is used to save the message you prepare to send, which you can edit, delete some parts or all.

7.2.4 Outbox

Browse the message that failed to send successfully. You can send, display, edit and delete some parts or the entire message.

7.2.5 Templates

Your phone saves messages both for SMS in common use. You can edit, remove or write message.

7.2.6 MMS settings

MMS function can be set in this menu, including:

1. Profiles

2. Common setting

- Edit setting
Set the edit mode, picture size, the best play time and automatic signature of MMS.
- Send setting
Set the send reply, read reply, priority level, interval time and send time in the period of sending MMS.
- Receive setting
Set main network, roaming network, read report and send report for the receipt of MMS.
- Filter
Set to receive the message from anonymous sender and advertisement through MMS or not.
- Save status
Browse memory status of MMS.

7.3 Broadcast message

- Broadcast message in SIM card 1
Receive mode: Leave the receive function of broadcast message on or off
Read message
Languages: Leave all types of languages on or off
Channel setting: Select, add, edit or delete broadcast channel message
- Broadcast message in SIM card 2
its function is the same as broadcast message in SIM card 1.

8. CALL LOG

8.1 Call history

8.1.1 SIM 1 call history

- SIM 1 missed calls
It displays the list of your recent missed calls. You can check all your missed calls.

- SIM 1 dialed Calls
It displays the list of your recent outgoing calls. You can check all your outgoing calls.
- SIM 1 received Calls
It displays the list of your recent incoming calls. You can check all your incoming calls.
- Delete SIM1 call logs
The phone records clearly so SIM1
- SIM1 call timers
- SIM 1 call cost
- SIM1 test message count
- SIM1 GPRS counter

8.1.2 SIM2 call history

Same as SIM1 call history

8.1.3 Call Settings

- SIM1 call settings
- SIM2 call settings
- Advanced settings
