When the device is powered on, Memory card 1 supports

hot-plug.

### **3.4 Headset**

Insert the headset into the headset jack on the right side of the device if required.

### **3.5 File manager**

File manager is used to manage the phone and the memory cards respectively.

#### **1. Connect to a computer**

The USB function of the device is available, no matter the device is powered on or off.

While the device is powered off, it will start charging and open File manager after the USB cable is plugged in. When the device is powered on, it will enter the "USB Config" interface automatically after the USB cable is plugged in. In the interface, select "Mass storage" to start File manager. If your memory cards are inserted, the computer will pop up removal disks, respectively representing your device and memory cards.

After you enter, you will find some preset files or folders. For

the sake of normal use, please put related files into relevant directories, that is, MP3 files shall be put into My music, videos into Videos, photos into Photos, records into Audio and Bluetooth received into Received. After the operation is completed, if you want to exit, click the USB icon on the lower right side of the PC desktop, select to stop the USB devices, and remove them after the pop-up warning "USB devices can be removed now" appears.

## 2. Format

If you format Phone or Memory card, all files in it will be deleted. You can format Phone or Memory card in two ways:

Use the phone to format directly.

Steps: Select File manager > Memory card/Phone > Format.

Use PC to format

To better complete the formatting, please follow the following steps:

- (1) Right click My computer to select Manage > Storage >Disk management;
- (2) Right click the disk of a memory card, and select Format.
- (3) In Allocation Unit Size, select Default and then confirm.

### **3.6 PC camera**

You can use the device as a PC camera.

For the first use, you may be required to install a driver. If you are using Windows XP, there is no need to install the driver.

Follow these steps below:

1. Plug in the USB cable when the device is powered on. The device will turn to USB Config automatically;

## **8 Battery information**

### **8.1 Operation information**

Your device is powered by a rechargeable battery. The battery can be charged and discharged hundreds of times but it will eventually wear out. When the talk and standby times are noticeably shorter than normal, please buy a new battery.

Use only the approved batteries, and recharge your battery only with approved chargers designated for this device.

Unplug the charger from the electrical plug and the device when not in use. Do not leave the battery connected to a charger. Overcharging may shorten its lifetime. If left unused, a fully charged battery will lose its charge over time.

### **8.2 Notice information**

Do not drop, knock, or shake the device. Rough handling can shorten the life of the battery.

Do not make short-circuit occur to the battery.

The battery put in hot or cold places, such as in a closed car

in summer or winter, will reduce the capacity and lifetime of the battery.

Do not put the battery near flammable or explosive goods.

Do not dispose of batteries in a fire!

Never use any charger or battery that is damaged. Use the battery only for its intended purpose.

Dispose of batteries according to local regulations. Please recycle when possible. Do not dispose as household waste.

## **9 Safety information**

### **9.1 Operating environment**

Remember to follow any special regulations in force in any area and always switch off your device when its use is prohibited or when it may cause interference or danger. Use the device only in its normal operating positions. Do not keep the device near credit cards and other magnetism medium, some accessories can bring magnetism that may be delete the data.

## 9.2 **Electronic devices**

Some electronic devices are not adequately shielded from external RF energy.

### 9.2.1 **Pacemaker**

Pacemaker manufacturers recommend that a minimum separation of 6in (20cm) should be maintained between a wireless phone and a pacemaker to avoid potential interference with the pacemaker. These recommendations are consistent with the independent research by and recommendations of Wireless Technology Research.

To minimize the potential interference, persons with pacemakers should do as below:

Always keep the device more than 6 in (20 cm) from their pacemaker when the device is switched on.

Not carry the device in a breast pocket.

Hold the device to the ear opposite the pacemaker.

If you have any reason to suspect that interference is taking place, switch off your device immediately.

### **9.2.2 Hearing aids**

Some digital wireless devices may interfere with some hearing aids. If interference occurs, consult your service provider.

### **9.2.3 Other medical devices**

Operation of any radio transmitting equipment, including wireless phones, may interfere with the functionality of inadequately protected medical devices. Switch off your phone in health care facilities when any regulations are posted in these areas instructing you to do so.

### **9.2.4 Vehicles**

RF signals may affect improperly installed or inadequately shielded electronic systems in motor vehicles.

## **9.3 Potentially dangerous situations**

Switch off your device when in any area with a potentially explosive atmosphere and obey all signs and instructions. Sparks in such areas could cause an explosion or fire resulting in body injury even death.

Switch off the device at refueling points such as near gas

pumps at service stations. Observe restrictions on the use of radio equipment in fuel depots, storage, and distribution areas, chemical plants or where blasting operations are in progress.

Areas with a potentially explosive atmosphere are often but not always clearly marked. They include below deck on boats, chemical transfer or storage facilities, vehicles using liquefied petroleum gas (such as propane or butane), and areas where the air contains chemicals or particles such as grain, dust or metal powders.

## **10 Care and maintenance**

Your device is a product of superior design and craftsmanship and should be treated with care. The suggestions below will help you protect your warranty coverage and enjoy your device for many years.

Do not use or store the device in dusty, dirty areas.

Do not store the device in hot/cold areas.

Do not contact the device by wet hands while charging. The electric current may strike and damage it.

Do not attempt to open the device other than as instructed in

this guide.

Do not drop, knock, or shake the device. Rough handling can break internal circuit boards and fine mechanics.

Do not use harsh chemicals, cleaning solvents, or strong detergents to clean the device.

Do not paint the device.

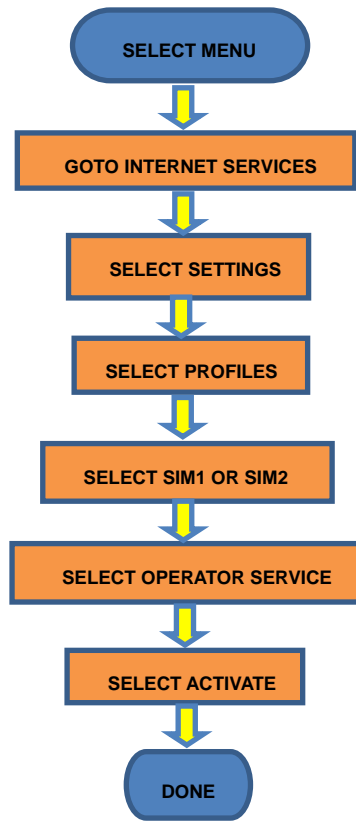

If any device is not working properly, take it to the nearest authorized service facility for service.
