SAFETY PRECAUTIONS
Before using your phone, please read the following important information to eliminate or reduce any possibility of causing damage and personal injury

	Do not use wireless phones while driving.
	Switch off wireless devices in aircraft. The signal may cause interference. Using them on aircraft is illegal.
	Do not use mobile phones where blasting is in progress. Follow regulations and rules strictly.
	Do not use mobile phones at a refueling point. Don't use near fuel or chemicals

2

Lemon

	Follow regulations or rules in hospital and health care facilities. Switch phone off near medical equipment.
	All wireless devices may get interference that could affect performance.
	Only qualified service personnel can install or repair this device.
	Use only approved accessories and batteries.
	Use only in normal conditions. Do not expose your phone to extreme high temperatures above +60°（+140°F）. Do not use anything static to clean your phone.
	Ensure the phone is turned on and in service. Enter the emergency number, then press Pick Up key. Give your location. Do not end the call until told to do so.

Improper use will invalidate the warranty! These safety instructions also apply to original accessories.
a) Use a wireless hands-free system (headphone, headset) with a low power Blue tooth emitter.
 b) Make sure the cell phone has a low SAR.
c) Keep your calls short or send a text message (SMS) instead. This advice applies especially to children, adolescents and pregnant women.
d) Use cell-phone when the signal quality is good.
e) People having active medical implants should preferably keep the cell phone at least 15 cm away from the implant.

---

5. Care and Maintenance

Maintenance of battery
·Your device is powered by a rechargeable battery. It is necessary to have the battery charged when it is going to wear out. The full performance of a new battery is achieved only when it is fully wore out.
·Unplug the charger from the electrical plug and the device when not in use. Do not leave fully a charged battery connected to a charger over a week, since overcharging may shorten its lifetime.
·Temperature tends to affect the limit of battery to be charged. Therefore, it is necessary for the battery to be cooled or warmed before it is charged. If the temperature of batter exceeds 40ºC ,the battery cannot be charged.
·Use the battery only for its intended purpose and avoid short-circuiting. Accidental short-circuiting can occur when a metallic object causes direct connection of the positive (+) and negative (-) terminals of the battery.
·Do not use damaged battery.
·Leave the battery in hot or cold places will reduce the capacity and lifetime of the battery. A device with a hot or cold battery may not work temporarily, even when the battery is fully charged.
·Do not dispose of batteries in a fire as they may explode. Dispose of batteries according to local regulations.
Care of maintenance of your device
The suggestions below will help you protect your warranty coverage.
·Keep the device and accessories out of the reach of small children.
·Keep the device dry. All types of liquids or moisture will corrode electronic circuits.
· Do not store the device in hot areas. High temperatures can shorten the life of electronic devices and warp or melt certain plastics.
·Do not attempt to open the device other than as instructed in this guide. Non-professional handling may damage the device.
·Do not use harsh chemicals or strong detergents to clean the device.
·Use only the supplied or an approved replacement attachments, for the unauthorized ones could invalidate the warranty of maintenance.

---

6. Additional Safety Information

Remember to follow any special regulations in force and use the device only in its normal operation positions.
Traffic Safety
·Unless there is an emergency, otherwise do not use the device when you are driving a vehicle without safety wireless equipment. Please park the vehicle in a safe place before you use the device in order to guarantee that you pay all attention to drive. Observe related regulations.
·In case there is no adequate protection, certain electronic systems of the vehicle may be affected by the electric wave of the device.
·You are suggested to use the device only in vehicles with antenna.
·Only qualified personnel should install the device in a vehicle.
Aircraft Safety
Switch off your device before boarding an aircraft. The use of wireless teledevices in an aircraft may be dangerous to the operation of the aircraft, disrupt the wireless telephone network, and may be illegal. The GSM service will be unavailable. When you are in flying aircraft, using your device t is prohibited.
Environment Safety
·Remember to follow any special regulations in force in any area, and always switch off your device when its use is prohibited or when it may cause interference or danger.
· Operation of any radio transmitting equipment, including wireless phones, may interfere with the functionality of inadequately protected medical devices. Consult a physician or the manufacture of the medical device to determine if you have any questions.
·Your device may interfere with some hearing aids, pacemakers and other medical devices. Please obey the suggestions provided by physicians or medical device manufacturers.
· You are suggested to switch off the device in any area with potentially explosive atmosphere, such as gas station, chemical factories etc.
·Observe restrictions on the use of radio equipment.
